

oneminuteforeurope.eu

a project for trans-national mobility of artists

Time is money – this time we offer you one minute!

Oneminuteforeurope.eu is a creative Internet platform that issues a challenge to European artists. We are giving them the possibility to exhibit their ideas about Europe and to create a multicultural dialogue through one minute video work (film, trailer, animation, collage, documentation etc).

By joining our platform, the artists will not only present their piece of work. They will also become part of a trans-national virtual exhibition that will be staged on the Internet level.

The project guarantees an international exchange of creative work. Through the partnerships with various European countries, a trans-national mobility among the partner organizations will be ensured.

Oneminuteforeurope.eu offers the chance to reflect all kinds of the European citizens' positions concerning e.g. expanding Europe, cultural identity, criticism or life experience gained in different countries.

By encouraging free participation, art impulses and statements, we will make the voice of the "European artist" heard.

Dear Colleague,

MEDIENTRAKTOR e.V. is looking for partners for our new project called *oneminuteforeurope.eu*, that gives artists the opportunity to publish their works trans-nationally and hence become part of an international dialogue of artist from all over Europe.
